In closing this report we would remark that a great amount has been expended this year as well as last, in repairs upon the four large town bridges, as also in building and extending new roads in various parts of the town, including liberal land damages. No further occasion will probably arise for years, for very extensive payments for expenditures of a similar character.

The additional pauperism forced upon us during the past year has been of a serious character, and the expenses connected therewith, of a great and unusual amount, as compared with any year since we have owned a town farm.

The town of Whitefield presented a heavy bill on account of the sickness of Sanford Dailey, not giving the selectmen of Lisbon any notice thereof until within two or three days of the expiration of the three months allowed by law for such notices. The bill had then grown up to the amount of seventy-five or eighty dollars, and

Mr. Dailey was at that time in a situation that rendered his removal impossible. It will be seen that Dr. Bugbee has presented an exorbitant bill in this case, which our selectmen, very properly, we think, have declined to pay to the full amount. Mr. Dailey was removed to our town farm as soon as his situation would permit.

We find that the sum of \$42.46 of the highway tax has been paid in money, under the vote passed last year, allowing a discount of twenty-five per cent. on all such payments made previous to the first day of June. This sum, with the exception of fifty-one cents, was paid in the Village, and about that amount has been expended there in extending and rebuilding their sidewalks. A large part of that amount was paid for plank and timber for that purpose which could not have been purchased with a highway tax.

We give a *detailed report with reasons* for the abatements.

All of which is respectfully submitted,

LEVI PARKER,	}	<i>Auditors.</i>
JOSEPH PARKER,		
A. A. WOOLSON,		

Lisbon, March 1, 1862.
